TRIANGLE SHOP CRAWL 2014

The latest shop crawl was great a lot of fun. We saw shops that had to share space with a car, small shops, large shops and even an extra one for pottery.

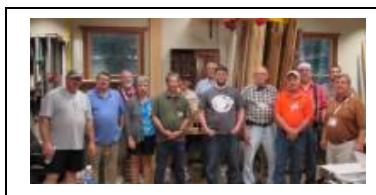

There were many organization tips like these:

There were some very cool cabinets:

I think we all had a very good time

I HOPE EVERYONE UNDERSTAND HOW BIG THIS IS

THIS IS **HUGE**

AND WE HAVE BEEN INVITED TO
PARTICIPATE

WOODWORKING IN AMERICA

WINSTON-SALEM

SEPTEMBER 12 -- 14

WHO IS DOUG STOWE?

Doug Stowe will be our guest speaker on September 18 at 8pm.

Doug Stowe began his career as a woodworker in 1976, making custom furniture and small boxes. He lives on a wooded hillside at the edge of Eureka Springs, Arkansas and specializes in the use of Arkansas hardwoods. In 1995, he began writing how-to articles for woodworking magazines. In 1997 his first woodworking book was published and his eighth is coming in the fall of 2014. He is also the author of three Taunton DVDs, Basic Box Making and Rustic Furniture Basics and Building Small Cabinets.

He is the author of over 70 articles in woodworking magazines, and two of his books have been translated into German.

In 2001, he began a woodworking program at the Clear Spring School, designed to integrate woodworking activities to stimulate and reinforce academic curriculum, restoring the rationale for the use of crafts in general education and demonstrating its effectiveness. In 2009 he was named an "Arkansas Living Treasure" by the Arkansas Department of Heritage and Arkansas Arts Council for his contributions to traditional crafts and craft education.

He also teaches at the Eureka Springs School of the Arts and the Marc Adams School of Woodworking and at woodworking clubs throughout the US.

His eighth book "Beautiful Boxes, Design and Technique" will be published by Taunton Press in September 2014

For you blog readers, his blog is Wisdom of the Hands.
